

New financial relief available for Evergy customers

LIEAP provides additional funds for Kansas residents

KANSAS CITY, Mo. – Jan. 10, 2023 – Applications are being accepted through March for financial assistance toward utilities from the [Low Income Energy Assistance Program](#) (LIEAP). In Kansas, completed applications must be received by 5 p.m. March 31. The average benefit is \$1,180, which can be applied to electricity or gas utility bills. Last year, \$47 million aided approximately 40,000 households in LIEAP assistance.

To qualify, Kansas residents must have a combined gross income of all people living at the address that is at or below 150% of the federal poverty level. For example, a family of four must have an annual household income (before taxes) below \$41,628.

Evergy customer advisors have partnered with community service organizations to help customers apply for LIEAP funds since 2010. Our advisors will host several utility assistance events over the next few months to assist customers applying for LIEAP. On Jan. 12, Evergy advisors will be at [Evergy Connect](#) in Wichita, 111 Ellis off Douglas Ave from 9 a.m. to 2 p.m. to help with applications. Evergy's Wichita Connect is open Monday – Friday, 9 a.m. – 4 p.m.

For more information on future assistance event dates, times and locations along with how to sign up for LIEAP, Kansas customers can visit [Evergy's Financial Assistance](#) webpage.

LIEAP is federally funded and helps eligible households pay a portion of their home energy costs by providing a one-time per year benefit. A customer's electric account does not need to be past due to receive the funds. Information on payment plans and other resources can be found at [Financial Help - Evergy](#).

About Evergy, Inc.

Evergy, Inc. serves 1.6 million customers in Kansas and Missouri. Evergy's mission is to empower a better future. Our focus remains on producing, transmitting and delivering reliable, affordable, and sustainable energy for the benefit of our stakeholders. Today, about half of Evergy's power comes from carbon-free sources, creating more reliable energy with less impact to the environment. We value innovation and adaptability to give our customers better ways to manage their energy use, to create a safe, diverse and inclusive workplace for our employees, and to add value for our investors. Headquartered in Kansas City, our employees are active members of the communities we serve.
