KANSAS CITY, MO., February 26, 2021 – Evergy, Inc. (NYSE: EVRG) today announced full year GAAP 2020 earnings of \$618 million, or \$2.72 per share, compared with earnings of \$670 million, or \$2.79 per share, for the full year 2019. Fourth quarter 2020 GAAP earnings were \$51 million, or \$0.22 per share, compared with earnings of \$64 million, or \$0.28 per share, for the fourth quarter of 2019.

For the year, GAAP earnings decreased primarily due to lower retail sales driven by unfavorable weather and a decrease in weather-normalized demand primarily due to pandemic impacts. Also contributing to lower earnings was higher depreciation expense from infrastructure investments, severance and advisor expenses, and higher interest expense; partially offset by lower operating and maintenance expenses.

Evergy's 2020 adjusted earnings (non-GAAP) and adjusted earnings per share (non-GAAP) were \$706 million and \$3.10, respectively, compared to \$694 million and \$2.89 in 2019, representing a year-over-year increase of 7%, in line with the company's target of 6% to 8% annual growth in adjusted EPS from 2019-2024. Fourth quarter adjusted earnings (non-GAAP) were \$64 million, or \$0.28 per share, compared with \$73 million and \$0.32 per share in the fourth quarter of 2019. Adjusted earnings (non-GAAP) and adjusted earnings per share (non-GAAP) are reconciled to GAAP earnings in the financial table included in this release.

For the year, adjusted (non-GAAP) earnings per share were driven higher primarily by lower operations and maintenance expense due to continued cost management and fewer shares outstanding. These benefits were partially offset by unfavorable weather, lower demand due to the impacts of the pandemic, higher depreciation expense, and higher interest expense.

"I'm very excited to be part of the Evergy team and to welcome Kirk Andrews, our new Chief Financial Officer," said David Campbell, Evergy president and chief executive officer. "Our executive team and employees remained laser-focused to deliver strong financial results in 2020, despite the unprecedented challenges. We also had solid operating performance in safety and reliability, and we continued to find efficiencies throughout our business. We have a tremendous opportunity in front of us with the Sustainability Transformation Plan, which we expect to continue driving long-term value for both customers and shareholders."

2021 EPS Guidance

Evergy issued 2021 GAAP EPS guidance of \$3.14 to \$3.34 and adjusted EPS guidance of \$3.20 to \$3.40. 2021 guidance does not reflect the expected positive impact of power marketing activities during the February extreme weather event.

Updates to Five-Year Capital Plan

Evergy has updated its five-year capital plan to include \$9.2 billion of infrastructure investments through 2025, as compared to \$8.9 billion through 2024. Including these additional investments, Evergy continues to expect compounded annual rate base growth of 5% to 6% from 2019 to 2024 as previously announced under the Company's Sustainability Transformation Plan.

Dividend Declaration

The Board of Directors declared a dividend on the company's common stock of \$0.535 per share payable on March 22, 2021. The dividends are payable to shareholders of record as of March 8, 2021.
